AN EXPLANATION.

The Vindicator has been asked to explain why it is that the price of silver bullion governs the price of cotton and wheat.

It is very simple, and we will quote the succinct reply recently given by the Atlanta Constitution to an inquirer. The wheat and cotton grown in British India compete in the English market with the wheat and cotton produced in the United States. The wheat and cotton of British India is purchased with and moved out of that country by means of silver currency. It is only among the British residents in the sea port towns of India that the purchasing power of the silver rupee has depreciated. Among the great mass of the population in British India silver has not depreciated in the slightest degree. A rupee will purchase as much now as it would when when the market value of the metal was $1.31. An ounce of silver would purchase a bushel of wheat in that country now. An ounce of silver would purchase ten pounds of cotton in Brittish India in 1873 and it will purchase ten pounds of cotton in that country to-day.

The result of this is that when the wheat and cotton growers of this country send their products abroad, they are compelled to take the equivalent of an ounce of silver for a bushel of wheat and for ten pounds of cotton. It has, therefore, been the policy of England to depreciate the commercial value of silver—why? In order to get cheaper wheat for her pauper working men, and cheap cotton for her manufactories. In this she has been ably seconded by her commercial and banking agents in this country. She has thoroughly enlisted the aid and sympathy of the selfish classes in this country, and under cover of a plea for "sound money" our industries have been prostrated and our producers impoverished.

The master stroke of England was the closing of the mints in India. This sacrificed many interests in India, but it gave the English people cheap wheat and cotton at the expense of the energy and prosperity of our own people. Following this came the unconditional repeal of the Sherman law, which was another victory for the Brit ish interests.

The commercial value of silver measures the price of wheat and cotton for the simple reason that the producers of wheat and cotton in British India can sell a bushel of one and ten pounds of the other for an ounce of silver and pocket as much money as they ever did,

And this is one reason why the policy of this country should run counter to the policy of Great Britain—one of the reasons why the people of the United States should place their influence behind silver and legislate to increase the demand for it as money and thereby increase its value.

A PARROT STORY.

Who that has ever owned a parrot with brains would doubt for an instant the truth of this tale?

Ben Lusbie, who for fifteen years was one of the greatest features of Barnum's circus in the capacity of "lightning ticket seller," had a wonderful parrot, which had been presented to him by one of the canvass-men of the show, who was at one time a sailor on a steamer plying between Boston and Fernandino, in the Bahamas.

Lusbie used to have a way of quieting the scrambling mob of ticket-purchasers around the ticket wagon by saying: "Don't be in a hurry, gentlemen:" "There's plenty of time;" "Don't crowd each other;" "One at a time, gentlemen," and such like expressions. The parrot, which was perched upon the safe in the wagon just back of Lusbie, got to learn these little speeches after a season's tour, and often broke out in a piercing squawk with one of them, much to Lusbie's amusement.

The parrott, which was quite a little vagabond, broke loose from her fetters one day, and flew over in a neighboring wood, near the circus grounds.

A searching party was made up, and they had not proceeded far before they heard a vast racket, apparently made by squawking birds. Hastening to the scene they found poor Poll clinging to the limb of a dead tree, surrounded by a screaming flock of crows. The parrot had only two or three tail feathers left, and pecking and plucking her right and left. Hanging on as best she could, the parrot was shrilly screaming: "One at a time, gentlemen!" "Don't crowd there!" "Take your time!" "There's plenty more left!"

A LITTLE HEROINE

Plunged into Red River to Rescue a Drowning Child.

Denison, Tex., May 11.—Minnie Moore, a little Miss of 13, is the heroine of an incident that occurred here yesterday during the progress of a school picnic at Carpenter's bluff on Red River. It appears that little Leslie Shearer, a child of 5, while playing near the water's edge, fell in. No one noticed her disappearance until Minnie Moore saw her floating down stream with the current and screaming for help. Miss Moore plunged boldly in to the little one's rescue and had already reached her, when she, too was overcome by the current and in danger of drowning. With great presence of mind, however, she held her charge above the water, and while battling with the current shouted loudly for help. A boatman near by, attracted by her cries, rowed rapidly to the spot and arrived in time to save Miss Moore and her little friend from drowning.—Sherman Courier.

Many of our readers remember little Leslie Shearer, daughter of Prof. and Mrs. P. B. H. Shearer, formerly of McKinney, and join in lauding the "Little Heroine" for saving the precious life.

Notwithstanding the cotton planters of the country produced, picked, and marketed 1,471, 518,624 more pounds of cotton in 1894 than they did in 1892 the crop of last year fell short over $45,000,000 of the crop of 1892. The wheat raisers lost $136,000, 000 in 1894 over the crop of 1892. There has been a corresponding loss in all other products, the aggregating amount to hundreds of millions of dollars. It is astonishing to contemplate the patience and forbearance of the American people.—People's Party Paper.

THE LION AND THE LAMB.

Washington, D. C., May 5.—"If the Democratic National Convention declares for free coinage of silver at 16 to 1 I don't see what I can do but vote the Republican ticket."

Secretary of the Treasury John G. Carlisle used this language in conversation to-day. He went on to say that as between a Democratic 16 to 1 presidential ticket and a Republican sound-money ticket there was nothing for Democrats who take the Administration view of the financial question to do but to vote with the Republicans. It might be, Secretary Carlisle said, that the sound-money Democrats in the National Convention would refuse to be bound by a 16 to 1 platform and ticket, and would make a platform and nominations of their own. In that event he would, of course, vote for the sound-money Democratic ticket. But—and the Secretary was very emphatic—he certainly would not support, with his vote, a 16 to 1 free coinage ticket.—Globe-Democrat.

THE G. O. P. THREATENED.

Denver, Col., May 13.—Following upon the lecture of ex-Congressman Bland in this city the following editorial published in the Times, republican, to-night attracted considerable attention:

"Henry W. Teller sounded the keynote for the next national campaign in Colorado, in a short speech at the Bland silver meeting Saturday night. It was not so much a special war cry to republicans, however, as a general warning to members of all parties to rally around the one flag under which there is hope for the return of national prosperity. * * * When Senator Teller announced he had cast his last vote for any presidential candidate who was opposed to free silver or lukewarm in its interests he did it with the knowledge that the republican party of Colorado stood [illegible] national republican party in 1895. Which will you choose?"

MCLENNAN county will soon be in the throes of a hotly contested local option campaign.

DALLAS, do your duty in securing the populist national convention. Your neighbors will help you.

WALL street seems to think that the masses will ever be content with the bones flung from the banquet table.

ABOUT 500 laborers of Dallas city met Monday night to protest against the city letting out its street cleaning work by contract.

GOV HOGG is floundering around among Wall street capitalists just as though he had never threatened to put them in stripes.

TOM W. PERKINS, editor of the Wylie Rustler, in answer to the Dallas News' query to "Texas editors" says Texas needs "more hard work and less populism." The above answer can always be counted on from one whos ignorance has led him to repeat in hand organ style the false phrases of "overproduction," "more work and less politics," and one whose mental and physical condition suggests that he should take some of his own medicine as regards "hard work."

THE Sherman Register issued an excellent Souvenir edition this week, containing an illustrated write up of the "Athens of Texas."

LET everybody write to some member of the national populist committee and urge Dallas, Texas, as the next meeting place of the Populist National convention.

A CHINAMAN dropped a can of nitro-glycerine in a powder house at San Francisco, Tuesday, which exploded and killed fourteen persons, nine of them being Chinese. The explosion was heard and felt for forty miles around.

THE recent meeting of the Texas Press association at Waco voted unanimously to aid in securing Dallas as the meeting place of the next populist national convention. Now, brothers of the quill, do your duty. On to Dallas!

CAPITAL has gained another great victory in the supreme court decision handed down by a full bench, Monday, declaring the whole of the income tax law unconstitutional and void. This is the second time that it has been heard in the supreme court in the past three months. The first time Justice Jackson being unable to fill his official duties the court tied on the matter, standing four and four. Justice Shiras, who sustained the law in the former hearing flopped to the opposite opinion in the latter. Chief Justice Fuller says in giving the majority opinion that the strength of a chain is measured by its weakest link; that the twenty-seventh to the thirty-seventh clauses inclusive are defective, therefore the whole of the law should be set aside, while in giving his opinion in the former hearing he favored the nullifying of the defective parts and letting the remainder stand. When this, our highest tribunal, court of last resort, becomes so vascillating as is thus exhibited it is high time for patriots to ponder well and act decisively.

THERE is talk of the national populist convention being secured for Dallas next summer. Never yet has Texas had an opportunity of displaying her great natural wealth and her progression to delegates from all parts of our nation. Where would such a convention receive a more cordial, instructive and strengthening a welcome than by the generous, [illegible] Texan will work to bring the delegates here because we love our country and are proud to show it. Lay aside political prejudice and think of the benefit of making known our resources! Show to the world that we are not a half-civilized people, but warm-hearted and true—fit to be called "friend" by the highest of them. Already the board of trade of the city of Dallas, the mayor and the city council together with enterprising citizens have met and most heartily invited the next populist national convention to meet in the queen city of the great South-west. Every editor of Texas should urge on the populist executive committee to select Dallas to hold the convention in and send a marked copy to State Chairman S. H. P. Ashby Smithfield, Texas, who will, without doubt, forward all matter to proper headquarters.

TOM WATSON was elected to congress three times from the tenth Georgia district and allowed to hold his seat one term. The first time he carried every militia precinct in every county of the district except one in Richmond. Before the next election the democrats who had control of the state gerrymandered his district but notwithstanding this crime he carried it and was only cheated out of his seat by the most dastardly methods of ballot box stuffing. He appealed to a democratic congress, which would not even give him a hearing in his own behalf. That he was elected the third time his opponent virtually conceded and promised to resign and refer the matter back to the voters of the district if Watson would not contest. Watson accepted in good faith rather than have it said he was seated by a republican congress. Black, his opponent, resigned last November but Atkinson, democratic governor of Georgia did not accept the resignation until March and now declares he will not order another election until next fall. A fourth election of Mr. Watson, if the election had been ordered as agreed to by democrats to induce him to drop his contest, was a foregone conclusion as the registration books showed that the populists out-numbered the democrats nearly two to one.

IF Dallas is selected for the next meeting place of the national populist convention, much good for the nation will result by the clearing away of prejudice which has been in vogue for so many years. On to Dallas!

COULD every woman in Texas have heard the loyal words of Mrs. S. Isador Miner, chairman of Woman's building, at the state fair, as she upheld the ability of her sex, and encouraged them to "push forward and climb upward" in the world's progression, few would have turned away without the determination to do all they could to assist her. The Woman's building will not only be a sanctum of rest, sociability and convenience, but will be a "woman's achievement" of which Texas may be proud. Let every one be interested! Send at least one dollar and secure one share which entitles you to the privileges of the building as long as it stands.

A PROMINENT SENATOR SHOT DEAD BY A WOMAN IN A ST. LOUIS HOUSE.

St. Louis, Mo., May 13.—State Senator Peter R. Morrissey was shot and instantly killed early this morning by Maud Lewis, his mistress. The tragedy was enacted in her room. The woman had been mentally unbalanced for some time according to the statements of her neighbors, and she is supposed to have been insane at the time the crime was committed Her screams informed the neighbors of the crime and they flocked to the scene, finding the woman in a frenzy of grief and terror, bending over the body and calling on "Pete" to "come back."

Morrissey died instantly, having received two shots in the head from a 33-caliber bull-dog revolver. Everything indicated that he was asleep when shot.

The Lewis woman was taken to the city hospital violently insane, but whether her condition was due to remorse for her act or antedated the crime could not then be ascertained. The remains of the deceased were taken in charge by an undertaker. At the time of his death Morrissey was a democratic member of the state senate from this city. His business was that of saloon and lodging-house keeper. He was 35 years old. Ten years ago Morrissey was indicted for ballot box stuffing, but the influence of the leaders of his party kept him from the penitentiary.

Maud Lewis is 25 years old. She was born and reared in St. Louis and is said to have come of a good family."

To reasonable observers the above is only the expected. The alarming indeed. In the cities especially, where the old parties have full sway—upheld by gamblers, saloon bums, and every discreditable gang, the leaders are but the hypocritical promoters and preservers of all that is contaminating to society and good government; and yet we find good citizens, leaders of society, ministers and members of churches, who at every recurring election vote to keep in power a gang of toughs and affect to believe that all is well.

As long as the voters sustain the old gang just so long will our nation continue to go down into the slough of immorality and degeneracy.

CROSS ROAD ITEMS.

Editor Democrat

The weather is rather cool and dry for this time of the year, has the "another" extended so far south as your sanctum.

Ed Stelzer and Julian Kerr have just returned from the nation, where they had carried some stock. They report the nation very fine and grass extra fine.

Hiliard Adamson started hither several weeks ago with a nice bunch of cattle but has not yet returned.

Frank Humphrey happened to quite a serious accident the other day. His team ran away throwing him off the cultivator and sprained his ankle quite badly besides some other slight injuries.

Cross Roads was lately called to mourn the loss of one of her esteemed citizens, Mr. Barger. His call from this to a better world was indeed sudden and unlooked for by his family. He plowed as usual all day and retired for the night well as common, and about 11 oclock the family heard him struggling and on going to the bed found him unconscious and dying. His remains were interred in Cross Roads Cemetery. Eld. Southerland conducted the funeral exercises which were attended by a large crowd. The bereaved family have the sympathy of the entire neighborhood.

ALLIANCE DEPARTMENT.

[EDITED BY MISS CORA CALDWELL PRINCETON TEX.]

Snow Hill alliance is on a general boom, they have 45 members enrolled and more are coming to join the ranks. This alliance meets the first and third Thursday nights in each month.

Sister Grove alliance is steadily increasing, members of "ye olden days" are coming back and taking up the broken threads and beginning to weave a strong subtle web of truth and prosperity.

We make one more earnest appeal to the sub-alliances for reports of their meetings.

Brethren! do you remember the pledge you gave us at the county alliance? Have you forgotten your promise in this short time?

"There is no excellency without great labor." Paste this motto in the crown of your hats and get to business at once. There is no time for delay.

HEART DISEASE, like many other ailments when they have taken hold of the system, never gets better of its own accord, but *Constantly grows worse.* There are thousands who know they have a defective heart, but will not admit the fact. They don't want their friends to worry, and *Don't know what to take for it,* as they have been told time and again that heart disease was incurable. Such was the case of Mr. Silas Farley of Dyesville, Ohio who writes June 19, 1894, as follows:

"I had heart disease for 23 years, my heart hurting me almost continually. The first 15 years I doctored all the time, trying several physicians and remedies, until my last doctor told me it was only a question of time as I could not be cured. I gradually grew worse, very weak, and completely discouraged, until I lived, propped half up in bed, because I *couldn't lie down* nor sit up. Thinking my time had come I told my family what I wanted done when I was gone. But on the first day of March on the recommendation of Mrs. Fannie Jones, of Anderson, Ind., I commenced taking *Dr. Miles' New Cure for the Heart* and wonderful to tell, in ten days I was working at light work and on March 19 commenced framing a barn, which is heavy work, and I hav'nt lost a day since. I am 56 years old, 6 ft. 4¼ inches and weigh 250lbs. *I believe I am fully cured,* and I am now only anxious that everyone shall know of your wonderful remedies."

Dyesville, Ohio. SILAS FARLEY.

Dr. Miles Heart Cure is sold on a positive guarantee that the first bottle will benefit. All druggists sell it at $1, 6 bottles for $5, or it will be sent, prepaid on receipt of price by the Dr. Miles Medical Co., Elkhart, Ind.

BASEBALL.

McKinney base ball club went to Plano Monday and simply mopped up the earth with that town's best base ball talent. Jack Coffey umpired. The score at the conclusion of the game stood 17 to 6, in favor of McKinney. Oliver and Jones, McKinney's battery, ably backed by the rest of our boys, just succeeded in goose-egging the would-be base ball players of our neighboring town eight of the nine innings—that's all. Jones' twirlers couldn't be located even occasionally and though his support, Oliver had never caught him before the Planoites were not in it from start to finish save in the second inning when they were permitted to score their six and only tallies.

The players were:

Catarrh, being a constitutional disease, requires a constitutional treatment, Hall's Catarrh Cure is taken internally, acting directly on the blood and mucuous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. On Saturday night, June 1, Polk Miller, of Virginia, will give an entertainment at Heard's Opera House for the benefit of Camp 109, United Confederate Veterans.

Mr. Miller has a reputation throughout the South of being unexcelled in his line. He has commanded large houses in the principal cities of the South, and won for himself great honors.

His specialty is a reproduction of all the songs, banjo etc. of the Southern plantation in the old times "befo' de wah." Good anecdotes are interspersed all through the performance, and Mr. Miller is said to be unusually good on stories and anecdotes.

Among his songs he renders to perfection are such favorites of the old time darkies as "Old Mississippi Side," "G'uine Back to Dixie," "Run Nigger, Run," "Hold Fast to the Baptist Hoe and Shupble up the dew wet Grass," "What kin' ob Slippers do Angels war?" "De Watemillen Smilin on de Vine," etc, etc. He also sings in the very best style all Southern Songs of the War period: "The Old Plantation Negro's Lament," etc. He has on hand a large store of amusing and quaint stories of the old time darkie's faithfulness to the white people, and, illustrating his ideas of freedom when he was first liberated.

The negro of to-day is quite different, in all things, from the old plantation darkey and the present generation of both the white people and negroes know little or nothing of the life, habits and true character of the old time negroes. No man in America can present the old style plantation life in the South better than Mr. Miller.

The Camp desires to say to the public that you will not only spend your money, if you attend the entertainment, for an unusual amount of fun but you will contribute at the same time to the benevolent and charitable objects of the Camp. We especially urge all ex-confederate vetererans, throughout the county, to attend the entertainment and get your neighbors to come also. Let the Camp turn out in a body, and also the "Sons and Daughters of the Confederacy." You will have to spend a little time and money but it will be in a good cause and for an unusual amount of fun.

Admittance, 50 cents.

CAMP 109, U. C. V.

What is CASTORIA

Castoria is Dr. Samuel Pitcher's prescription for Infants and Children. It contains neither Opium, Morphine nor other Narcotic substance. It is a harmless substitute for Paregoric, Drops, Soothing Syrups, and Castor Oil. It is Pleasant. Its guarantee is thirty years' use by Millions of Mothers. Castoria is the Children's Panacea —the Mother's Friend.

Castoria.

"Castoria is so well adapted to children that I recommend it as superior to any prescription known to me." H. A. ARCHER, M. D., 111 So. Oxford St., Brooklyn, N. Y.

"The use of 'Castoria' is so universal and its merits so well known that it seems a work of supererogation to endorse it. Few are the intelligent families who do not keep Castoria within easy reach." CARLOS MARTYN, D. D., New York City.

Castoria.

Castoria cures Colic, Constipation, Sour Stomach, Diarrhœa, Eructation, Kills Worms, gives sleep, and promotes digestion, Without injurious medication.

"For several years I have recommended your 'Castoria,' and shall always continue to do so as it has invariably produced the best results." EDWIN F. PARDEE, M. D., 125th Street and 7th Avenue, New York City.

THE CENTAUR COMPANY, 77 MURRAY STREET, NEW YORK CITY.

it.

National banks were rechartered in 1882 and no democrat has ever introduced a bill to repeal this charter.

Only one democrat voted against the contraction act by which millions of greenbacks were burnt up and interest bearing bonds issued in their place.

Seven democrats voted to repeal the income tax in 1867. If they had voted the other way the bill could not have passed.

In 1873 the democrats assisted the republicans in demonetizing silver, and in 1893 the republicans helped the democrats to do the same thing.

In 1886 a fre coinage bill would have passed if 68 democrats had not voted against it.

The McKinley bill has been denounced by every democrat paper and speaker in the land, and the Wilson bill which has recently passed the house "is a miserable makeshift." Give them more time.

In 1877 they loaned the whisky ring the tax on liquor stored in warehouses, and only 18 democrats voted against it. Still it is unconstitutional to loan the farmer money on his cotton.

If the record that the democrats have made and are now making is not enough to drive every man who loves his family out of the party, then nothing will do it.—Ex.

DEADLY FIGURES.

THE WITHERING EFFECTS OF THE SINGLE GOLD STANDARD.

A careful examination into the operations of the single gold standard during the year of 1894 presents figures that are calculated to startle the average mind.

There has been a decrease of $500,185,790 in property values in 43 states and territories. Only twelve states out of the 43 show an increase. The decrease in the 31 remaining states represents a general falling off while the total increase of values for the 12 states is $337,800,753, and of this amount, $235,883,482 is represented by New York alone. Thus it will be seen that one state represents a fraction over 69 per cent of the entire increase, and 70 per cent of the remainder comes from Massachusetts and Pennsylvania. The increase in nine of the twelve states is only $30,822,092 while the remaining three, New York, Massachusetts and Pennsylvania show an appreciation of $306,978,661.

The net decrease of property values in Georgia, Alabama, Arkansas, Kentucky, Mississippi, Tennessee, Texas, Virginia and West Virginia is $90,284,580.

To recapitulate, 31 states have lost over five hundred millions of dollars in one year by the single gold standard while three states embracing the money centers, New York, Philadelphia and Boston, have gained $306,978,661.

New York, Boston and Philadelphia have every reason in the word to sing the praises of the single gold standard, but when applied to the country at large it is a fraud of the first water.—People's Party Paper.

DEMOCRATIC RECORD IN BRIEF.

Prior to 1861 democrats donated to railroads 30,420,920 acres of land.

Later congress granted millions of acres to the Union Pacific, and only two democrats voted against

INGERSOL ON ALCOHOL.

The following wonderful piece of word painting has been frequently published, says the Chicago Tribune, but we reprint it at the request of several readers who desire a complete copy. Col. Robert G. Ingersol, in addressing a jury in a case which involved the manufacture of alcohol, made the following terrible arraignment of the demon:

"I am aware that there is a prejudice against any man who manufactures alcohol. I believe that from the time it issues from the coiled and poisonous worm in the distillery until it empties into the jaws of death, dishonor and crime, it demoralizes everybody that touches it, from its source to where it ends. I do not believe anybody can contemplate the object without being against the liquor crime. All we have to do, gentlemen, is to think of the wrecks on either bank of the stream of death, of the suicides, of the insanity, of the ignorance, of the destitution, of the little children tugging at the faded and withered breasts of weeping and despairing mothers, of wives asking for bread, of the men of genious it has wrecked, the men struggling with imaginary serpents produced by this devilish thing called alcohol; and when you think of the jails, of the almshouses, of the asylums, of the prisons, of the scaffolds upon either bank, I do not wonder that every thoughtful man is prejudiced against this damned stuff. Intemperance cuts down youth in its vigor, manhood in its strength, old age in its weakness. It breaks the father's heart, bereaves the doting mother, extinguishes natural affection, erases conjugal love, blights parental hopes, brings down mourning age in sorrow to the grave. It produces weakness, not health; death, not life. It makes wives widows; children orphans; fathers fiends, and all of them paupers and beggers. It feeds rheumatism, invites cholera, imports pestilence and embraces consumption. It covers the land over with idleness, misery and crime. It fills your jails, your asylums. It engenders controversies, fosters quarrels and churches riots. It crowds penitentiaries and furnishes victims for your scaffolds. It is the life blood of the gambler, the element of the burglar, the prop of the highwayman and support of the midnight incendiary. It countenances the liar, respects the thief, esteems the blasphemer. It violates obligations, reverences fraud and honors infamy. It defames benevolence, hates love, abhors virtue and slanders innocence. It incites the father to butcher his helpless offspring, helps the husband to massacre his wife and the child to grind the parricidal ax. It burns up men, consumes women, detests life, curses God, despises heaven. It subdues witnesses, nurses perjury, defiles the jury box and stains the judicial ermine. It degrades the citizen, debases the legislator, dishonors the statesman and disarms the patriot. It brings shame, not honor; misery, not happiness; despair, not hope; and with the malevolence of a fiend it surveys its frightful desolation and unsatiated havoc. It poisons felicity, kills peace, ruins morals, blights confidence, slays reputation, and wipes out national honor, then curses the world and laughs at its ruin. It does all that and more. It murders the soul. It is the sum of all the villians, it is the father of all crime, the mother of abomination, the devil's best friend and God's worst enemy.

Editorial Comment.

Populist state conventions have been called for Iowa, June 11, and Kentucky July 4.

Populists of Grayson county at a meeting in Sherman on the 11th inst., organized a central club with 800 names to begin with.

How about the laboring man who grumbles because that class will not stick together and then goes off and votes the old party tickets?

How strange we penniless boast of freedom when the few who get office under this government are the only ones who can do a day's work without sharing the profits thereof with another individual.

Make it possible for the poor in America to serve themselves without serving others who are financially better fixed, then paupers and millionaires will alike fade out of existence.

A very great difference in the populist and the old parties is that in the former its representatives stick to their constituents and in the latter the constituents stick to their representatives.

There are millions in this country who could tell you just how a man, after a great battle, feels on finding out that he has through mistake, been waging war against his friend and in the benefit of his enemy.

To abolish the lobby, which debauches legislature and makes popular government worse than a farce we must have the Swiss method of direct legislation known as the initiative and referendum, which gives the people a veto over all bills passed before they become a law says an exchange. This will prevent legislation by bribery.—Tacoma Sun.

These wee democratic sheets and politicians are preaching free silver loud and long now, for well they know the Cleveland cuckoos will capture their conventions, thereafter making them talk gold standard with the apology, I'm a democrat, in other words, "a yaller dog," and must trot along under the wagon.

The silver fiatist, who is eager to pay his debts in half weight coin has no use for the Golden rule.—Dallas News.

The gold inflationist who is eager to grasp two bushels of wheat or two pounds of cotton when only one belongs to him is void of all rules of right and justice. See?

A METHODIST STORY.

A good old Methodist lady attending services in a suburban Episcopal church became happy under the preaching of the word and ejaculated:

"Glory!"

She was admonished to keep quiet by two of the brethren, and nodded assent; but soon becoming forgetful, responded:

"Hallelujah!"

The brethren again called her attention to the disturbance, and told her that if she did not keep quiet they would be compelled to remove her. The sermon proceeded, and the old lady, becoming very happy and forgetful of her surroundings, shouted out.

"Glory to God!" This was too much for the brethren, and they tried to lead her out; but see refused to walk, so they carried her. On the way she said:

"I am honored above my Master, for while he was carried by one ass, I am carried by two."
—Philadelphia Record.

CARING FOR THE CHILDREN.

The Riverside day nurseay since its opening in 1887 has been supported by voluntary contributions. Notwithstanding the lack of proper facilities for the extension of the work, the record of the institution has been a most creditable one. In 1890 the number of children who were cared for and given a day home was 2185. Last year the aggregate attendance had grown to 6641. In addition to this the nursery had secured for the mothers of the children 383 days of work.—New York Evening Post.

The populists are certainly having great trouble holding on to their free silver plank. It was appropriated by the carstable crowd at Houston. Surrendered to the populists at Lampasas and at Chicago. Lugged over the state by Commissioner Reagan during the last campaign. Returned to the populists at the Dallas convention. Appropriated by the democratic nominee for governor, and is now being claimed again by a body of political insurgents claiming the democratic succession. The populists seem to be wholly unable to keep their own lumber.—Dallas News.

WHEN DOCTORS AND HOSPITALS FAILED.

DALLAS, TEX., April 4, 1895.—This is to certify that for the last eight or nine years I have been sorely afflicted with a most severe bowel and rectal trouble, which also produced a complicated condition of the uterus and kidneys. I was four months in the Dallas hospital and was treated at different times by at least a dozen different physicians and was operated on four times, but all to no avail. I continued to grow worse until I had lost hope of recovery, but thank God a lady friend advised me to try Dr. McDowell's Family Medicines. I had used only one bottle of the La Creole Blood Purifier and one box of Rabbit Brain Ointment when I found I was improving fast. I have used six bottles of the La Creole and about the same number of the salve and Eel Oil, and I positively could not be paid enough money to be placed back in the same position I was in when I commenced the use of the medicine.

My husband was attacked with a severe case of Grippe and had a severe cold and fever. He was so bad that we thought he could not recover, but he concluded to try McDowell's Hot Drops and Eel Oil and in a few days was able to resume his work. MRS. HATTIE DAVIS, 317 Elm Street.
